

INSTITUT FÜR ARBEITSMARKT- UND
BERUFSFORSCHUNG
Die Forschungseinrichtung der Bundesagentur für Arbeit

Scientific Research Assistant in Education Economics (100%)

Your work environment

The Institute for Employment Research (IAB) is the research department of the Federal Employment Agency (BA). It is one of the leading labour market research institutions in Europe and advises political actors and the professional public based on the latest scientific findings. Your research department is Education, Training, and Employment Over the Life Course (BQE).

Your tasks and activities

- Supporting relevant and interesting research projects in applied quantitative economics (mainly education economics)
- Preparation of longitudinal administrative and self-collected datasets on child development and adolescences transition decisions
- Statistical analyses with longitudinal administrative and self-collected datasets

Requirements

- Master or Bachelor degree, preferred disciplines: economics or social science
- In-depth knowledge of statistical analysis methods and programs (e.g. STATA)
- Good knowledge in empirical research methods
- Good knowledge in a relevant research field, such as labour or education economics
- Very good knowledge of English
- Knowledge of German **is not** necessary

We offer

An employment contract for 4 months, with a possible continuation at the TH Nürnberg <https://www.th-nuernberg.de/fakultaeten/bw/> or IAB with the possibility to start a PhD

The position is well suitable to prepare for other national and international PhD programs

Start date: If possible 01.09.2023

Monthly hours: 100% full-time

Salary with Master: TE II Salary scale of the BA (equivalent to TV-L 13, over 4200 Euros before tax) <http://oeffentlicher-dienst.info/tv-ba/>

Location: Nürnberg, but also remote
